ABOUT ME

Data scientist with several years of experience in analytics, I am interested in transitioning to a full-on python developer role. I like the problem solving aspect of programming and I am constantly learning.

EXPERIENCE

Data Scientist for Sustainalytics

May 2021 - Present

- Working mostly within the field of NLP
- Developing web crawlers, scrapers and various reusable Python tools, mostly focused around data mining
- Developing text classification algorithms

Data Analyst for Ericsson

September 2020 - May 2021

- Exploratory data analysis in Python and SQL
- Automating reports and data pipelines
- Developing dashboards in Tableau and PowerBI

VBA Developer for Molson Coors Beverage Company

February 2020 - August 2020

- Automating tasks for finance teams and developing small apps

Junior ➡ Senior ➡ Expert AP clerk with Danish for DB Schenker

June 2016 - February 2020

- Development and implementation of several tools which reduced FTEs and the workload for colleagues
 - Training junior and senior staff
 - Team coordination and process back-up for the team manager
-

EDUCATION

Master's degree in International Relations from Aalborg University

September 2012 - July 2014

Bachelor's degree in Journalism from Lucian Blaga University

October 2009 - July 2012

OTHER ⚙️

Foreign Languages 🖐️

- Danish - Medium (PD3 certificate)
- English - Fluent (CAE and TOEFL certificates)

Tech skills 💾

- **Python** programming:
 - Limited OOP experience, mostly scripting.
 - Personal projects, such as web scrapers, small pieces of software, etc. can be found [here](#)
- **SQL**
- **Git**
- Basic knowledge of **HTML** and **CSS**
- **VBA** programming & advanced usage of **Excel**
- I'm not intimidated by a terminal

Personal 🧑

- I'm a father
- I ❤️ reading and music
